#### WHAT IS THE STATEMENT OF QUALIFICATIONS?

Through the Statement of Qualifications, public and private organizations are invited to establish their qualifications to bid for County of Santa Cruz Workforce Innovation and Opportunity Act (WIOA) funds. Organizations that have established their capacity to administer WIOA funds are placed on the Qualified Agency List and are eligible to respond to Request for Proposals (RFP), and to contract with the County of Santa Cruz.

#### The Statement of Qualifications:

- Is available for completion year-round and organizations may submit a Statement at any time.
- May be submitted prior to, or in conjunction with the submittal of a proposal.
- Must be updated on an annual basis as determined by the County.

The County may remove an organization from the Qualified Agency List if:

- The information provided in the Statement of Qualifications, or Updates indicates an inability to manage WIOA funds.
- The organization's contracted program performance also indicates an inability to manage WIOA funds.

#### WHEN SHOULD ORGANIZATIONS SUBMIT THE STATEMENT?

The Workforce Development Area will accept Statements of Qualifications throughout the year. However, an approved Statement indicating the capability to administer WIOA funds and programs must be on file prior to, or in conjunction with, the submittal of any proposal for WIOA funding.

Organizations interested in submitting a proposal in response to County RFPs are encouraged to submit their qualifications as soon as possible. Organizations will be notified in writing whether their qualifications meet the established minimum requirements for eligibility to receive WIOA funds, and whether or not their organization has been placed on the Qualified Agency List.

#### WHAT IF THE ORGANIZATION DOES NOT QUALIFY?

Organizations whose Statement of Qualifications do not establish their capability to administer WIOA funds will receive a written notice indicating the specific deficiencies and outlining what, if any, actions the organization can take to correct such deficiencies.
